Subject:	DNS entries for past customers should be deleted		
Description:	<p>Some customers have a DNS entry under @vps.bitfolk.com@, usually when they do not (yet) own a domain of their own.</p> <p>When they leave BitFolk these entries are currently not removed. The IP address can be given to another customer, at which point there is a hostname under @vps.bitfolk.com@ pointing at an unrelated customer's IP. This can show up in web searches and SEO reports and cause confusion.</p> <p>Therefore the relevant DNS entry under @vps.bitfolk.com@ should be removed when the customer leaves.</p>
