Subject:	Allow customers to enter a preferred gpg key		
Description:	<p>It would be a good thing to have an option under https://panel.bitfolk.com/account/contacts/ to enter a gpg key one would prefer to use in communication with Bitfolk.</p> <p>There even appear to be a suitable module for RT (http://www.bestpractical.com/docs/rt/4.2/RT/Crypt/GnuPG.html), even if it initially might be more doable to only use the specified gpg key in special cases.</p>
