- Status changed from New to Feedback

I've upgraded these nameservers now and I believe based on checking with ISC's EDNS Compliance Tester that this all works now:

<https://ednscomp.isc.org/ednscomp/f7d0c05773>

They have been in service for several days.

Does everything look OK?

Looks good!

That said, there is the somewhat related minor issue of the new b.authns not having a PTR record for its IPv6 address.
