Subject:	Standardise the capitalisation of "BitFolk"		
Description:	In logos "bitfolk" should be all lower case but with two different colours. In normal text it should be capitalised as BitFolk. There are some instances of "Bitfolk" on the site.

- Status changed from New to Feedback

I only found one instance of "Bitfolk" on the site, which is now fixed. There's some in the testimonials but I'd rather leave them as written by the customers.

- Status changed from Feedback to In Progress

At least one person thinks I should correct the capitalisation of BitFolk even in customer testimonials, and who am I to argueâ€¦!
