<b>Subject:</b>	Panel body CSS causes error on Opera		
<b>Description:</b>	<p>Accessing the panel under Opera causes an error loading the body part of the stylesheet:</p> <pre>&lt;pre&gt; https://panel.bitfolk.com/bit.css Selector syntax error  Line 4:   body {   -----^ &lt;/pre&gt;</pre> <p>Seems to be caused by the @//@ style comments, which in CSS should be @/* vim: ... */@ for single or multi-line comments.</p>

Should be fixed now. Can you give it a look?

**2010-06-23 14:45 - chaldene**

Thanks, it's fixed. The styling now loads correctly.
