Subject:	Integrate the monitoring service with PagerDuty		
Description:	<p>It seems that Icinga can be made t work with PagerDuty quite easily:</p> <p>https://www.pagerduty.com/docs/guides/icinga2-integration-guide/</p> <p>So if anyone did want to feed alerts from BitFolk's monitoring into PagerDuty we can look in to that.</p> <p>As I don't have a PagerDuty account I'd probably need access to someone's in order to get that working but it looks pretty simple.</p>
