Subject:	RSS feed of BitFolk status		
Description:	<p>Martin said:</p> <p>Is it possible that we can get some kind of RSS feed for outages, etc, preferably split up into the hosts (urquell, kwak, etc).</p> <p>I know we can get info from twitter/users@ - but it's more likely that I'll spot an RSS notification popup for an outage (assuming I've put it in the right group!)</p>
