<b>Subject:</b>	Proper SSL certificate needed		
<b>Description:</b>	The Nagios web interface requires a proper SSL certificate. Either one needs installing for nagios.bitfolk.com, or we could perhaps consider moving it to <a href="https://tools.bitfolk.com/nagios/">https://tools.bitfolk.com/nagios/</a> since that already has an SSL certificate.		

### History

**2012-12-07 03:54 - admin**

- Status changed from New to Closed

A wildcard SSL certificate was purchased for other BitFolk web sites, so it was also put into place for nagios.bitfolk.com.
