<b>Subject:</b>	PowerDNS doesn't support \032 in record labels		
<b>Description:</b>	<p>PowerDNS currently does not support \032 in record labels (left hand side), which breaks zones which want to use DNS service discovery (Bonjour).</p> <p>The bug has been reported the the developers:</p> <p><a href="http://wiki.powerdns.com/trac/ticket/345">http://wiki.powerdns.com/trac/ticket/345</a></p> <p>Until we get a fix, customers who have zones with these kind of records will need to avoid using b.authns.bitfolk.com and c.authns.bitfolk.com. a.authns.bitfolk.com is BIND and doesn't have this bug, so is still usable.</p>		

### History

#### 2011-03-25 05:49 - admin

We are currently testing an upstream fix for this issue.

#### 2011-04-03 01:10 - admin

- Status changed from New to Closed

Upstream fix resolves this, and doesn't appear to have introduced any other issues.
